BROADSTONE NET LEASE, INC.

Broadstone Net Lease, Inc. | NYSE: BNL

Investor Presentation

November 2026

DISCLAIMERS

CAUTIONARY STATEMENTS CONCERNING FORWARD-LOOKING STATEMENTS

This presentation contains “forward-looking” statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, regarding, among other things, our plans, strategies, and prospects, both business and financial. Such forward-looking statements can generally be identified by our use of forward-looking terminology such as “outlook,” “potential,” “may,” “will,” “should,” “could,” “seeks,” “approximately,” “projects,” “predicts,” “expects,” “intends,” “anticipates,” “estimates,” “plans,” “would be,” “believes,” “continues,” or the negative version of these words or other comparable words. Forward-looking statements, including our 2026 guidance and assumptions, rent commencement timing, and build-to-suit developments, involve known and unknown risks and uncertainties, which may cause BNL’s actual future results to differ materially from expected results, including, without limitation, general economic conditions, including but not limited to fluctuations in the rate of inflation and/or interest rates, local real estate conditions, tenant financial health, property acquisitions, and the timing and uncertainty of completing these acquisitions, and uncertainties regarding future distributions to our stockholders. These and other risks, assumptions, and uncertainties are described in Item 1A “Risk Factors” of the Company’s Annual Report on Form 10-K for the fiscal year ended December 31, 2025, filed with the SEC on February 19, 2026, which you are encouraged to read, and is available on the SEC’s website at www.sec.gov. Should one or more of these risks or uncertainties materialize, or should underlying assumptions prove incorrect, actual results may vary materially from those indicated or anticipated by such forward-looking statements. Accordingly, you are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date they are made. The Company assumes no obligation to, and does not currently intend to, update any forward-looking statements after the date of this presentation, whether as a result of new information, future events, changes in assumptions or otherwise.

TRADEMARK DISCLAIMER

This document contains references to copyrights, trademarks, trade names, and service marks that belong to other companies. Broadstone Net Lease is not affiliated or associated with, and is not endorsed by and does not endorse, such companies or their products or services.

NON-GAAP FINANCIAL INFORMATION

This presentation contains certain financial information that is not presented in conformity with accounting principles generally accepted in the United States of America (GAAP), including funds from operations (“FFO”), core funds from operations (“Core FFO”), adjusted funds from operations (“AFFO”), earnings before interest, taxes, depreciation and amortization (“EBITDA”), EBITDA further adjusted to exclude gains (losses) on sales of depreciable property and provisions for impairment on investments in real estate (“EBITDAre”), Adjusted EBITDAre, Annualized Adjusted EBITDAre and Net Debt. We believe the use of FFO, Core FFO, and AFFO are useful to investors because they are widely accepted industry measures used by analysts and investors to compare the operating performance of REITs. We believe that EBITDA provides investors and analysts with a measure of our performance that includes our operating results unaffected by the differences in capital structures, capital investment cycles and useful life of related assets compared to other companies in our industry. We believe that the presentation of Pro Forma Net Debt to Annualized Adjusted EBITDAre is a useful measure of our ability to repay debt and a relative measure of leverage and is used in communications with our lenders and rating agencies regarding our credit rating. Such non-GAAP measures should not be considered in isolation or as an indicator of the Company's performance. Furthermore, they should not be seen as a substitute for metrics prepared in accordance with GAAP. Reconciliations of these measures to their most directly comparable GAAP measures for the periods that are presented in this presentation can be found in the section entitled “Management’s Discussion and Analysis of Financial Condition and Results of Operations – Non-GAAP Measures” in the Company’s Form 10-Q for the fiscal quarter ended September 30, 2026, filed with the SEC on October 28, 2026.

INVESTMENT THESIS | BROADSTONE NET LEASE (NYSE: BNL)

Established REIT with Longstanding Track Record of Success

- 18+ year operating history pursuing a diversified net lease strategy with a leading team, proven through multiple cycles
- Continued growth of the portfolio and consistent performance has delivered predictable cash flow, driving 4.2% AFFO per share growth in 2025 and 4.7% forecasted AFFO per share growth in 2026 at the midpoint of guidance

Differentiated 'Core Building Blocks' Strategy, Delivering a 43.6% Total Shareholder Return Since 2023

- Core Building Blocks consist of strong in-place portfolio growth anchored by best-in-class annual rent escalations, build-to-suit developments, and stabilized acquisitions, providing varying levers of value creation
- YTD 2026 investments of $500 million, including $125 million in stabilized acquisitions and $315 million in on-going developments. Year-to-date, we have started $456 million in new build-to-suit starts, with our total committed in-process pipeline of $456 million ***providing visibility to ~$36 million of new ABR through 4Q 2027[1].***

Active Portfolio Management with Exceptional Results Throughout Multiple Economic Cycles

- Consistently strong rent collections through multiple real estate economic cycles with 99.9% rent collections in Q3 2026
- Experienced team and infrastructure in-place to support the entire investment lifecycle, resulting in 106% recapture rate on 2026 maturities that have been extended year-to-date
- Creative, solutions-oriented team actively manages credit and headline events, supporting proactive dispositions that mitigate credit risk, resulting in only 31bps of lost rent in 2025 and ***4bps in lost rent in 2026 year-to-date***

Thoughtfully Constructed and Diversified Portfolio with Best-in-Class Metrics

- Diversified strategy with exposure to desirable net lease sectors including industrial and retail
- Tenant and industry diversification has acted as a proven defensive hedge against economic distress
- Top tier portfolio metrics: 2.1% weighted average annual rent escalations, 9.3 years WALT, and 20.6% top 10 tenant concentration

Scalable Platform with Flexible and Fortified Investment Grade Balance Sheet to Support Growth

- Optimal size with an efficient in-place platform that can drive meaningful growth
- Investment grade balance sheet (S&P – BBB, Moody's – Baa2) with a robust liquidity profile and limited debt maturities through 2027
- Pro-forma net debt to annualized adjusted EBITDAre of 5.4x[2], positioned to drive additional growth through our build-to-suit strategy

Experienced Management Team with Deep Pool of Talent

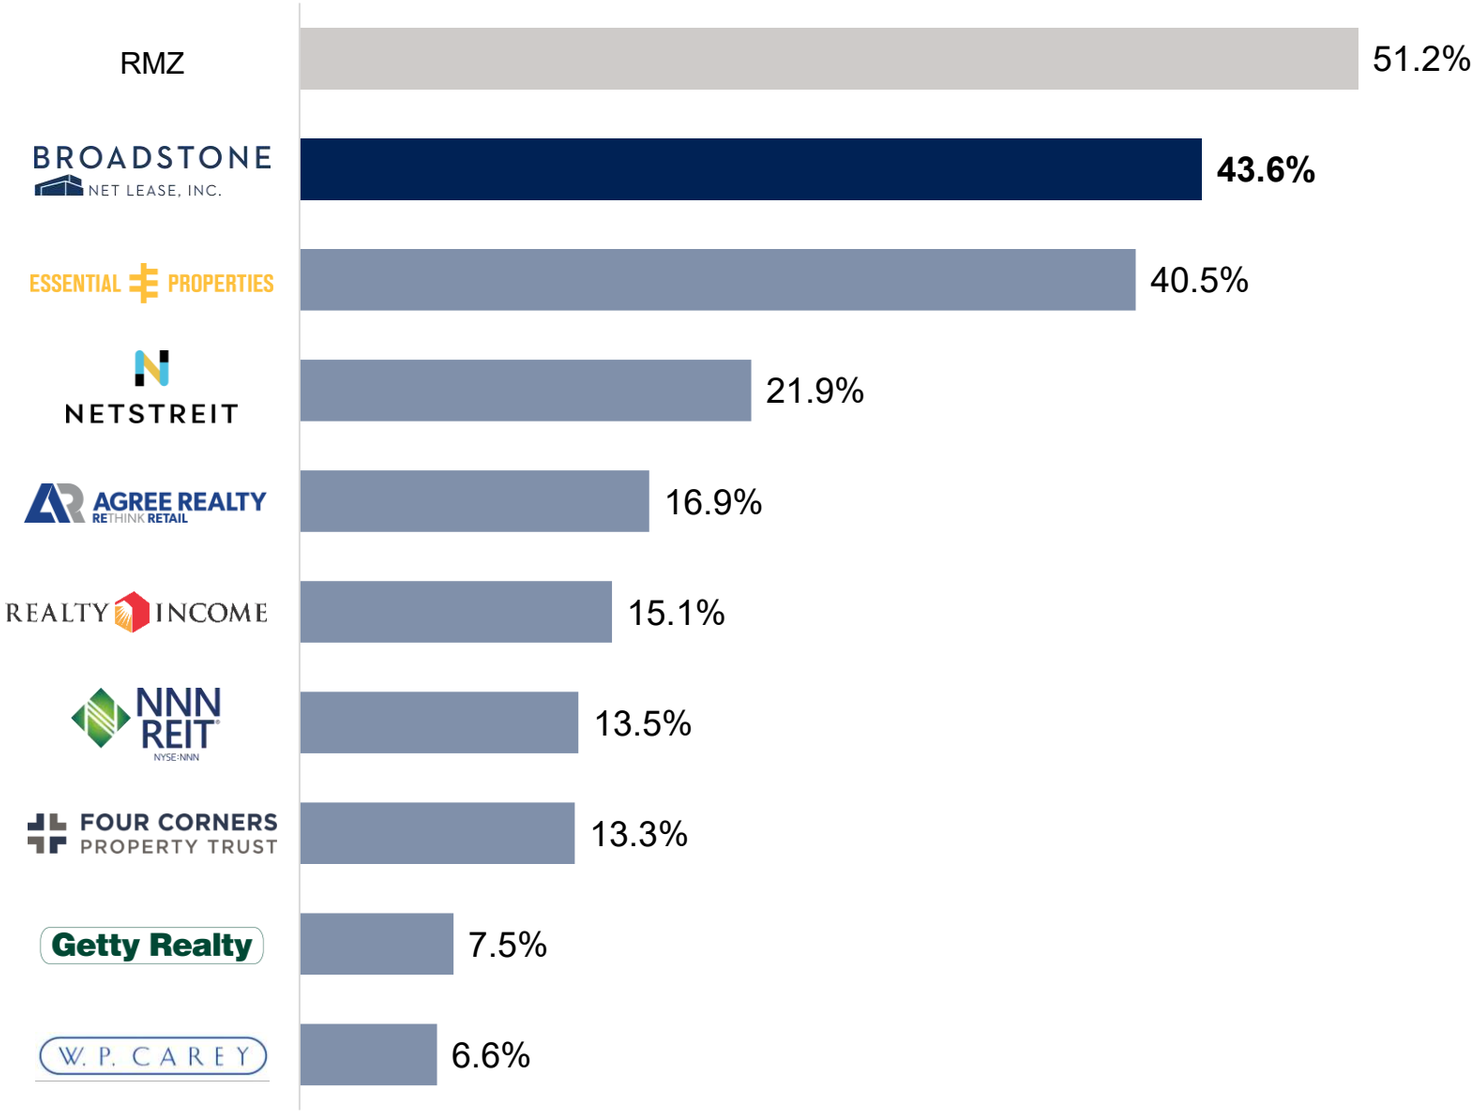

- Experienced, cycle-tested management team constructed over 10 years with long-term relationships and expertise
- Diverse board of directors with meaningful public REIT experience and substantial personal investment in the Company

Data as of September 30, 2026, unless otherwise noted; market data as of November 4, 2026, and since January 1, 2023

1. As of October 28, 2026; BTS commitments and economics provided on slides 11 and 12
2. Pro Forma Net Debt / Annualized Adj. EBITDAre includes adjustments for unsettled forward equity as of September 30, 2026, estimated contractual revenues based on in-process development spend to-date, or a combination thereof.

BEST-IN-CLASS SHAREHOLDER RETURNS

‘Core Building Blocks’ strategy initiated in 2023 has delivered best-in-class shareholder returns in the net lease space despite a multiple that remains ~1.5x below peer average

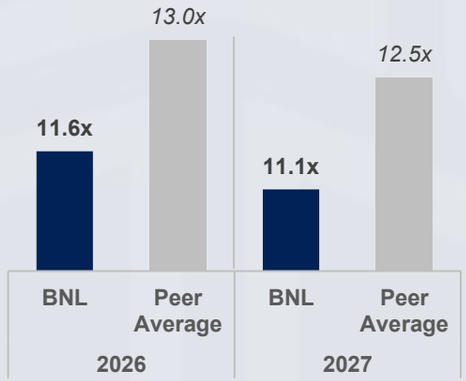

8.6%

YTD 2026 total shareholder return

6.5%

Dividend yield

An improving multiple remains ~1.5x below peer average[1]

Source: market data as of November 4, 2026, and since January 1, 2023, unless otherwise noted

1. 2026E AFFO per share multiple assumes midpoint of guidance for BNL and consensus estimates for peers as of November 4, 2026; 2027E AFFO per share multiple assumes consensus estimates for all, including BNL

INVESTMENT STRATEGY

Deacero
Dayton, TX

CORE BUILDING BLOCKS OF GROWTH

Differentiated strategy with in-place portfolio and BTS pipeline providing visibility to embedded growth through 2027

1 IN-PLACE PORTFOLIO

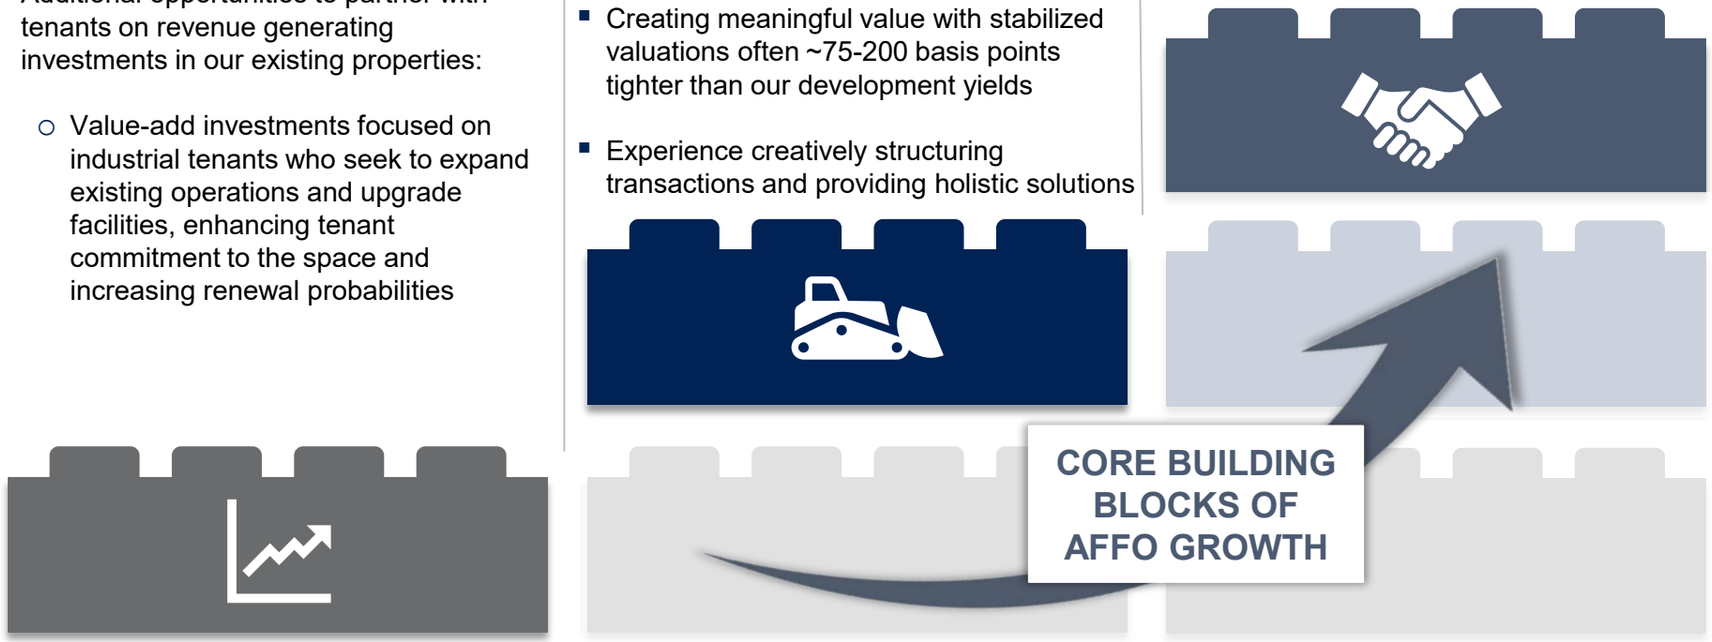

- Existing portfolio NOI growth driven by:
  - Stable rent collections
  - Contractual rent escalations
  - Minimal credit loss
  - Strong lease rollover outcomes
  - Accretive capital recycling
- ~2.1% in-place portfolio rental escalations provide a solid base for AFFO growth in future periods and are among the strongest in the net lease REIT space
- Additional opportunities to partner with tenants on revenue generating investments in our existing properties:
  - Value-add investments focused on industrial tenants who seek to expand existing operations and upgrade facilities, enhancing tenant commitment to the space and increasing renewal probabilities

2 BUILD-TO-SUIT DEVELOPMENTS

- Provide financing solutions across the entire capital stack in exchange for attractive opportunities with higher yields relative to the stabilized transaction market
- Key differentiator in the net lease space as development activity creates embedded growth in earnings across future years
- Provides access to higher quality opportunities, typically with stronger real estate and credit fundamentals
- Creating meaningful value with stabilized valuations often ~75-200 basis points tighter than our development yields
- Experience creatively structuring transactions and providing holistic solutions

3 STABILIZED ACQUISITIONS

- External growth through new property acquisitions via sale-leasebacks and lease assumptions
- Primarily targeting stabilized industrial and retail acquisitions that exceed accretion thresholds over cost of capital
- Emphasis placed on directly sourced, relationship-based deal flow to drive stronger risk-adjusted returns vs. broadly marketed transactions

+2.1%

Average annual rent escalations provides strong base to build from before factoring in external growth opportunities

+$456mm

In-process build-to-suit developments, resulting in ~$36mm of incremental ABR through 4Q'27

+$125mm

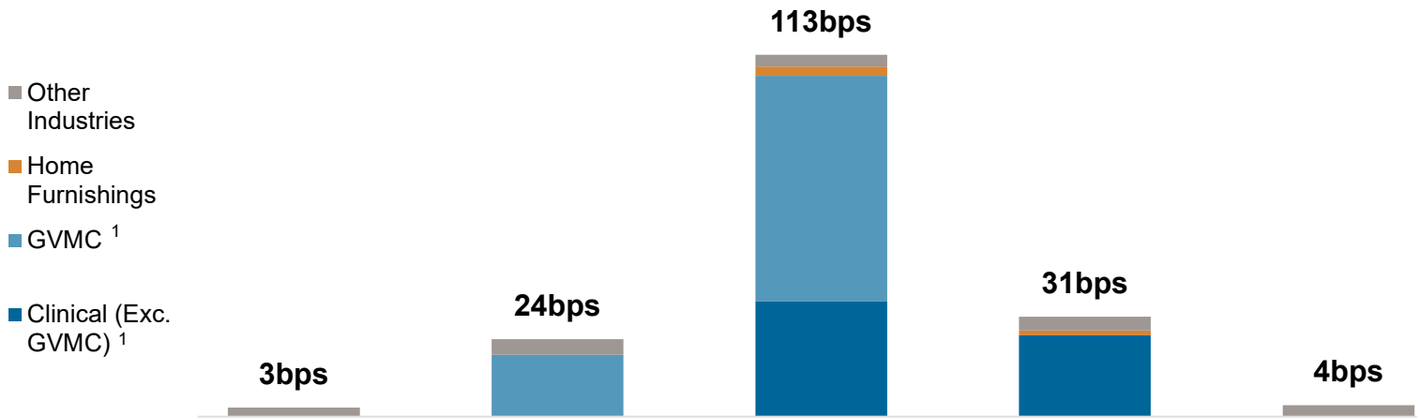

2026 stabilized acquisitions at an ~8.3% initial cash cap rate

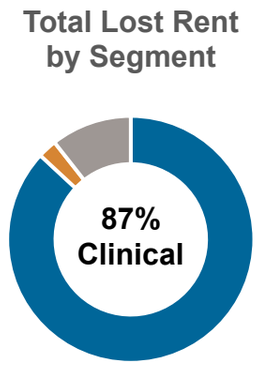

Data as of October 28, 2026

LOST RENT | STRONG PORTFOLIO MANAGEMENT

Diligent portfolio efforts over the last three years has led to limited lost rent, realizing 31bps of lost rent in 2025 and 4bps year-to-date 2026

AFFO Per Share Growth:	6.9%	0.7%	1.4%	4.2%	4.7%[3]

Announced Clinical Exit in 2023

TRANSITIONAL CAPITAL | CREATING SOLUTIONS WITH OUR PARTNERS

Transitional Capital has helped strengthen our relationships with preferred partners and has proven to be a sound capital allocation decision. While it has been a helpful tool, transitional capital will remain a selective investment structure used to unlock unique opportunities.

*How **BNL** Benefits from Transitional Capital*

- Provides exclusive access to unique opportunities with significant value creation potential
- Opportunity to deploy capital and earn an above market yield given the nature of the investment and the flexibility provided
- Builds a pipeline of opportunities with the potential to convert into BTS developments and stabilized core investments with additional time
- Structured with multiple exit paths that provide value and risk management flexibility for our investment at all stages of the conversion cycle

*Investment structure that allows us to provide **mutually beneficial solutions** to our **preferred partners***

*How our **Preferred Partners** Benefit*

- Allows our partners to move with certainty, speed, and confidence
- Flexible source of patient capital that lowers our partner's balance sheet burden and supports its pursuit of a higher number of opportunities that could in turn benefit BNL in the future
- Simplifies the number of parties at the table and sources of capital that could have misaligned incentives
- Creates a true partnership with incentive alignment in the form of profit, cost and risk sharing

TRANSITIONAL CAPITAL
CONVERSION CYCLE

*Thoughtful structuring provides the **optionality to exit** at multiple stages along the way, often **creating value** at each step of the conversion cycle*

*Transitional Capital structured to provide maximum **flexibility** and **optionality** on the conversion path to a stabilized core investment*

PROJECT TRIBORO | ATTRACTIVE DEVELOPMENT OPPORTUNITY

Development paths range from multiple industrial build-to-suits to a hyperscale data center campus, providing significant opportunity for high-value investment

INVESTMENT | PROJECT TRIBORO

- Opportunity sourced with one of our preferred partners, Sansone Group, who we have partnered with on several opportunities to date and continue to evaluate a pipeline of prospective future projects
- Project Triboro is an industrial development opportunity located within the I-87 / 78 corridor just outside of Scranton, PA, and encompasses 550+ acres of developable land that is fully entitled across four pads
- To date, we have invested ~$154mm in the form of transitional capital in consolidated joint ventures with Sansone to acquire the land and have commenced site work while simultaneously completing a strategic alternatives assessment for the site
- **Optionality on the site:** (1) As underwritten – four industrial BTS buildings (800k–1.0mm SF each), ~$520mm total development, development yields north of 7.5%, stabilized yields around 6.0%, and deliveries potentially commencing as early as mid-2028; (2) Near-term land monetization – unsolicited interest at valuations representing a potential multiple of our ~$154mm invested capital, with BNL participating in upside per JV terms; or (3) Highest and best use today is a 3 - 4 phase hyperscale data center ($2.5bn+ total cost), economics likely closely aligned with our recently announced Colorado transaction.
- Included as a transitional capital investment currently earning a preferred return of 7.8%

Control & Decision-Making Rights across all key decisions per the executed joint venture agreement

Land Value Backstop ***with unsolicited offers over 2.0x current invested dollars***

Fully Entitled site for industrial development, which significantly compresses the timeline to delivery and provides a strong backstop

Heavy Water & Power Access with committed 300MW of power within the first 36 months and **up to 1GW** thereafter

Location / Proximity to major northeast metros provides significant logistical advantages for industrial users

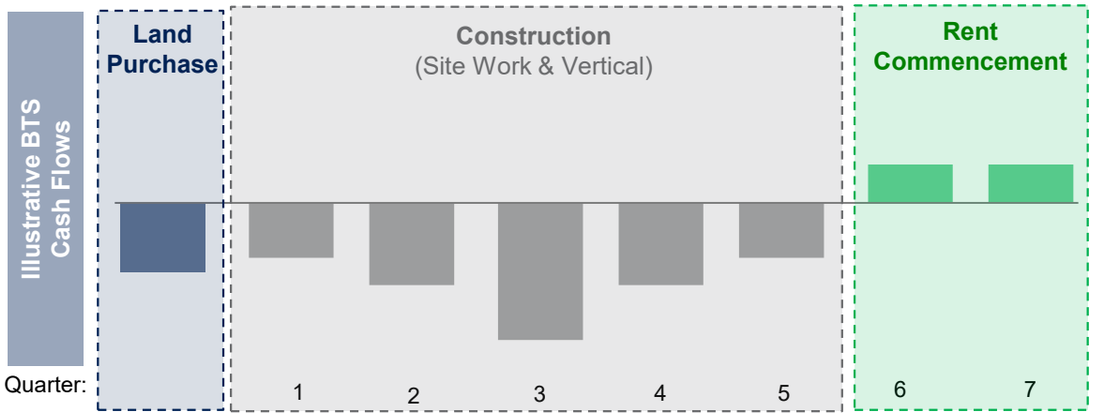

Favorable Industrial Supply & Demand Imbalance exists with speed to deliver the largest question among users

Data Center Potential with 1GW+ of power commitments garnering the attention of hyper-scalers, some of whom have submitted the unsolicited purchase offers

Data as of September 30, 2026
Source: CoStar

BUILD-TO-SUIT RISK MITIGATION & STRUCTURING

RISK MITIGATION

Contractual Agreements Limit Traditional Development Risk

- Gross maximum price agreements, date certain leases, and routine monthly construction updates limit downside risk while allowing BNL to capture higher yields than sale leasebacks
- Long-term leases signed prior to starting development, giving BNL comfort as a long-term holder as opposed to having to flip investment for a profit like a traditional developer

Emphasis On Detailed Underwriting

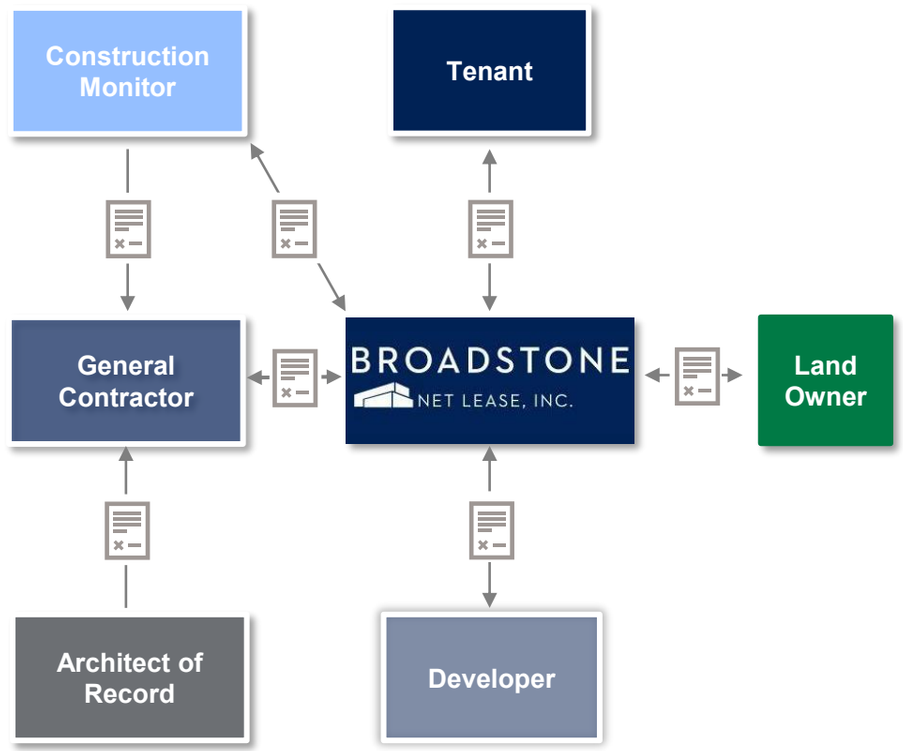

- Balance of real estate fundamentals and tenant credit to ensure we are allocating capital to the best risk-adjusted opportunities to drive accretive REIT-level earnings growth and visibility to long-term value creation
- Prioritize working with general contractors with strong liquidity and a track record of project execution

Accounting & Financial Statement Impact

- All costs incurred throughout construction (namely interest expense, real estate taxes, insurance, etc.) are capitalized into the basis and depreciated over the useful life of the asset (no AFFO impact during construction)
- Rent commences upon substantial completion and delivery of the asset

STRUCTURING, CONTACTS & KEY PARTIES INVOLVED

*Our **growing network of partners** brings **industry-leading expertise** to the table, ensuring each project is delivered seamlessly to the highest standard*

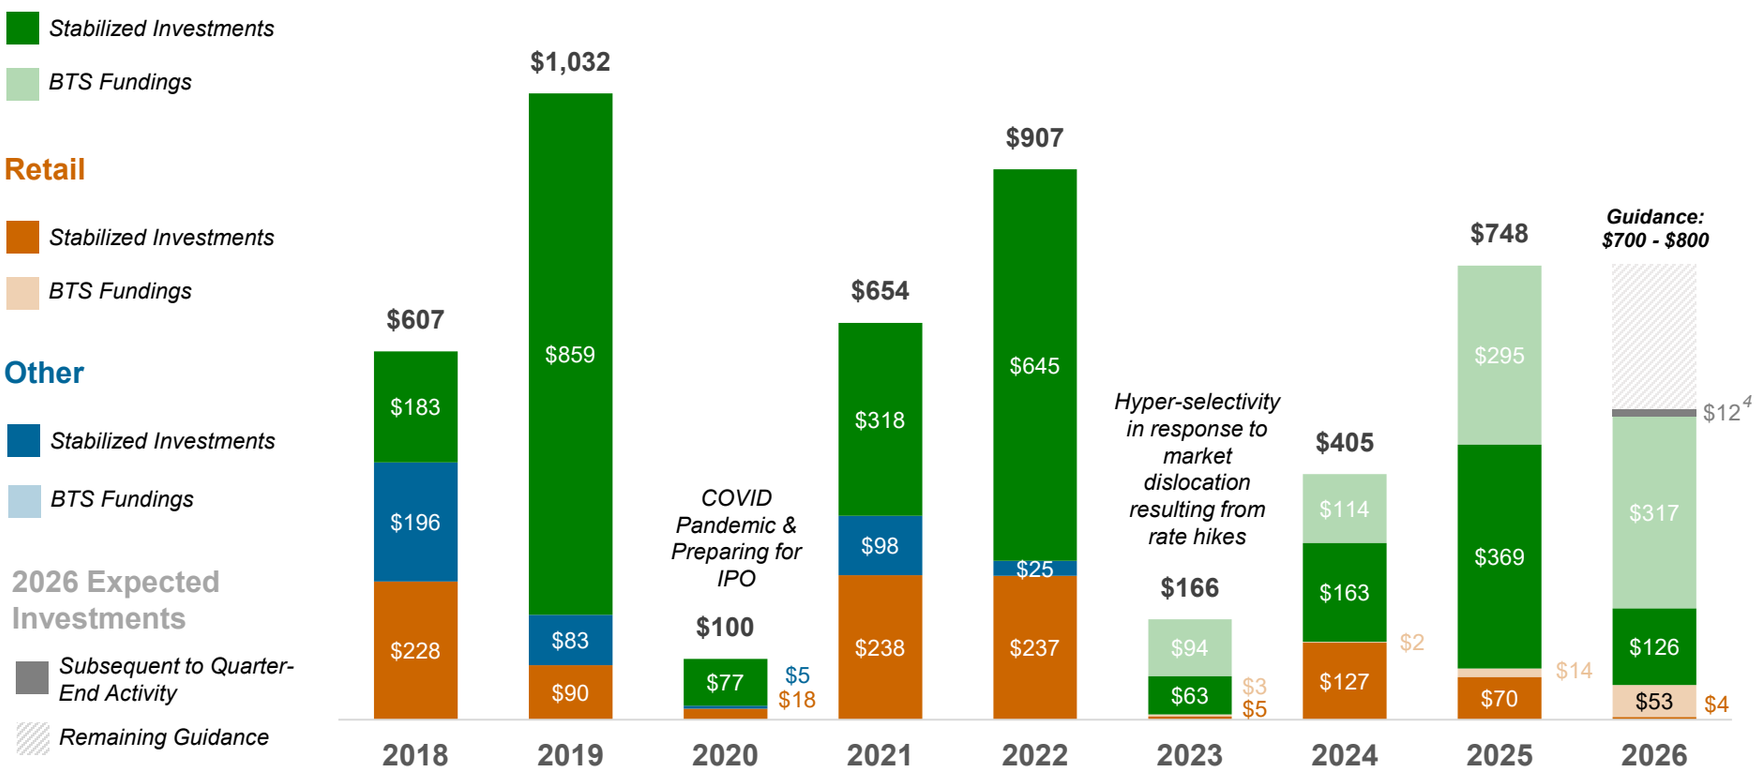

***Thoughtful structuring, incentive alignment, and contractual risk mitigation** ensure exposure to typical development related risk is limited*

PROVEN & DISCIPLINED INVESTMENT APPROACH

Stabilized acquisitions have historically been, and will continue to be, core to our business and growth model; Higher degree of selectivity in recent years given market dislocation and growing focus on built-to-suit developments

Annual Capital Deployment ($ in millions)

	2018	2019	2020	2021	2022	2023	2024	2025	2026
% of GAV[1]	23.5%	32.8%	2.5%	16.2%	19.8%	3.1%	7.5%	13.9%	N/A
Investment Cap Rate[2]	6.9%	6.6%	6.9%	6.3%	6.4%	7.2%	7.3%	7.0%	

$3.4B | 76%

Of investment volume closed since 2019 has been industrial

$927mm | 51%

Of stabilized investment volume and percent of total investments since commencing the BTS strategy in 2023

Of investment volume since 2023 has been sourced through existing relationships[3]

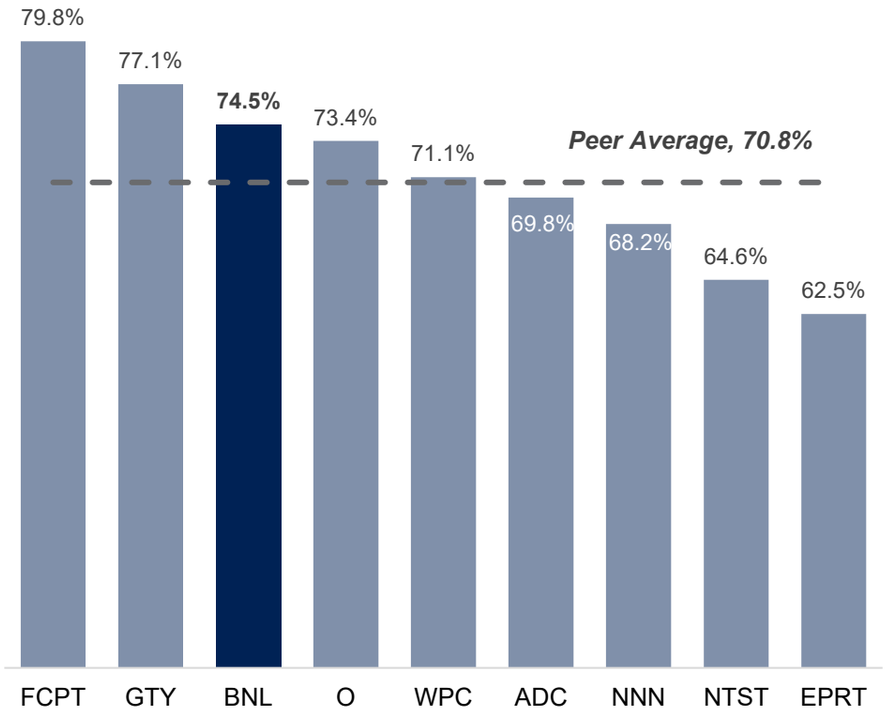

Data as of September 30, 2026, unless otherwise noted; revenue generating capex investments have been grouped with "stabilized investments" and our transitional capital opportunities are divided such that Project Triboro (Olyphant, PA) investments are within "Industrial BTS Draws" and Retail Center (St. Louis, MO) investments are in "Stabilized Retail Investments"

1. % of previous year end, Gross asset value "GAV" means undepreciated book value, which represents the fair value of the assets as of the date acquired, less any subsequent write-downs due to impairment
2. Represents the estimated first year cash yield, calculated as specified cash base rent for the first full year after investment divided by property purchase price
3. "Relationship" includes all deals sourced directly or specifically brought to us as part of a smaller marketed transaction, as opposed to a broadly marketed one; volume includes total estimated project costs for in-place build-to-suits and transitional capital investments to date
4. Subsequent to quarter-end investment activity of ~$12.2mm, all of which is in connection with ongoing BTS developments

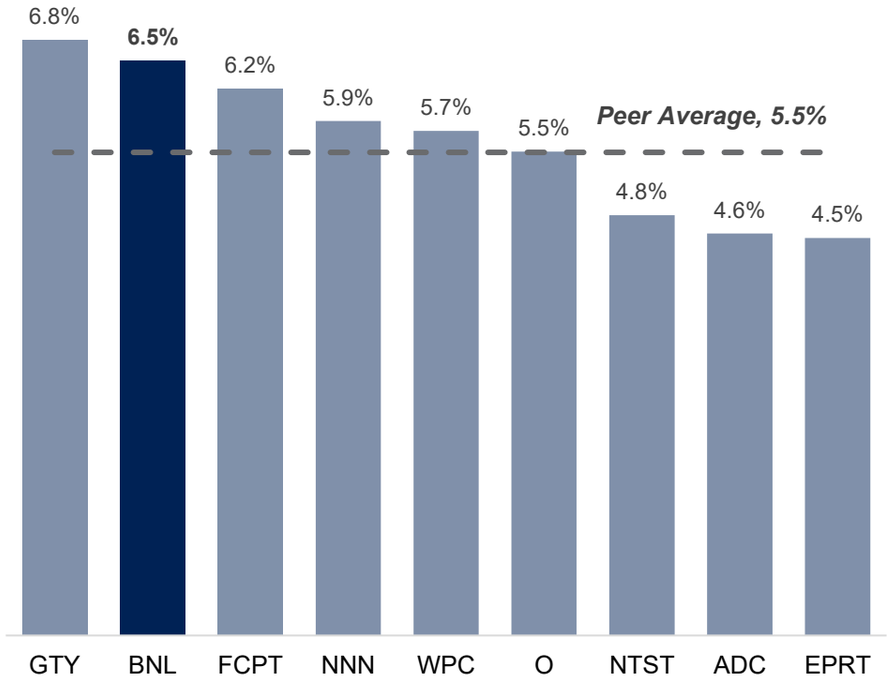

RETURNING GROWTH TO SHAREHOLDERS

Dividend reflects our commitment to driving long-term shareholder value and total returns through a combination of AFFO and dividend growth

RETAIL BTS DEVELOPMENTS

- While larger, industrial BTS transactions are more impactful to growth in ABR and NOI, BNL views retail BTS's as an attractive piece of our differentiated BTS strategy, especially when done programmatically
- BNL continues to expand its developer and broker relationships, which has resulted in an attractive pipeline of opportunities to further expand retail development starts

BALANCE SHEET MANAGEMENT

Disciplined balance sheet positioning since 2023 created capacity to fund a high-quality build-to-suit pipeline; pro forma leverage of 5.4x reflects recent equity offering and provides ample capacity to fund continued external growth

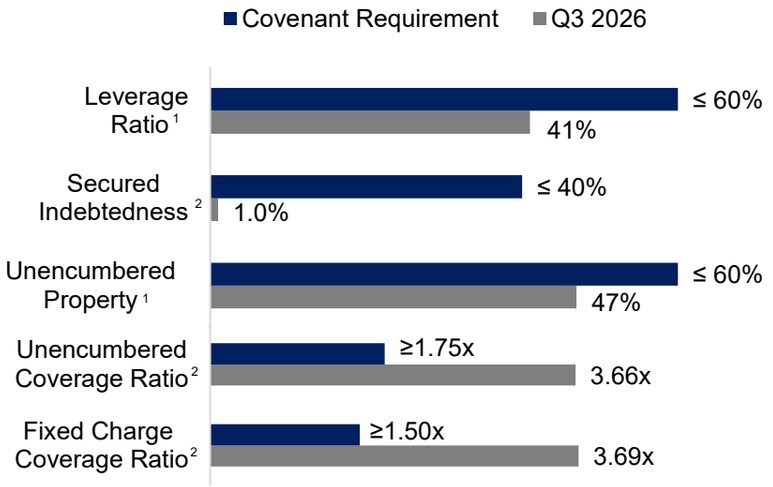

LEVERAGE CAPACITY & DEBT STRUCTURE

- Flexible capital structure designed to support growth while maintaining disciplined leverage
- Targeting up to 6.0x pro forma leverage on a sustained basis, supported by disciplined capital management
- Ability to monetize and recycle build-to-suit developments provides an additional lever to manage capital sources
- Well-laddered debt maturities and diversified funding sources reduce refinancing risks and enhance liquidity
- Consistent focus on preserving credit strength while supporting investments and shareholder returns

Data as of September 30, 2026

OTHER NON-CORE ASSETS

- Includes remaining Office, Clinical and Surgical assets that fall outside our targeted sectors for future investment
- Will evaluate opportunistic sales, releasing, or redevelopment as part of our routine portfolio management with no urgency to sell
- Total exposure will naturally decline through a combination of regular-way disposition activity and growth in our core property types, Industrial and Retail

1. Represents pro forma adjustment for estimated net proceeds from forward sale agreements that have not settled as if they have been physically settled for cash as of the period presented.
2. Reflects an adjustment to give effect to all investments during the quarter, including developments that have reached rent commencement, as if they had been made as of the beginning of the quarter.
3. Reflects an adjustment to give effect to all dispositions during the quarter as if they had been sold as of the beginning of the quarter.
4. Amount includes $0.3 million of non-capitalized demolition costs recognized in connection with demolition of a property being redeveloped and $0.2 million of severance and employee transition costs for the three months ended September 30, 2026.
5. Amount includes $0.3 million associated with the return of funds held in escrow for property work not completed, $0.2 million associated with end of lease activities, and $0.2 million from lease assignment activities, all of which are not core to our business operations for the three months ended September 30, 2026.
6. Represents estimated contractual revenues based on in-process build-to-suit spend to-date.

SAME STORE RENTAL REVENUE | THREE MONTHS ENDED SEPT. 30, 2026

SAME STORE, AND NON-SAME STORE PROPERTIES

Same Store Rental Revenue: *Represents cash base rents, net of uncollectible amounts, and excludes the amortization of above/below market leases, straight-line rent, operating expenses billed to tenants, net write-offs of accrued rental income, and other income from real estate transactions for properties that we owned for the entire year-to-date period for both current and prior year except for properties during the current or prior year that were under development. For purposes of comparability, same store rental revenue is presented on a constant currency basis by applying the exchange rate as of the balance sheet date to base currency rental revenue.*
